Atlantic City's Brilliant Season—The R-y-R Route's Great Travel

Go to the seashore, then, pessimist and be convinced that they dire complaints about "Hard Times" are wrong, all wrong! Never in its history has Atlantic City held so much of gaiety, such enormous numbers of visitors as at the present time. Just because that frightful bugaboo "Hard Times" has no real existence, or, if it does, it is a thing of the future, and not of the present. The seashore is the place to go to get rid of the financial griefs and down their business sorrows in the foaming surf and foaming soda water. At any rate, go there. The season at the great resort has been a great one, and it is just now at its very zenith. No better time than the present could be selected for a visit, and no season in the world or the new companies with Atlantic City in picturesque, cosmopolitan and in variety. One may see body and brain in dreamlike contemplation of the sublime beauty of the sea, be "loaf and invite" to the beach, or be plunged into the bubbling swirl of gaiety and take a giddy whirl in the merry-go-round of pleasure and greater diversity than is anywhere else attainable. But, first of all, one must get there.

And the getting there is not the least among the delights of a visit to this beautiful Atlantic City. There are several ways of reaching this lovely resort. One may go by the indisputable gauge of popular preference, the best way is the "Royal Reading Railroad Route." It is only fifty-five miles, but it is among the celebrated railroads of the world, and it is the finest railroad running to any American watering-place. It is double-tracked from end to end, and is constructed in the most substantial manner with the heaviest of steel rails, laid on oak ties, ballasted with clean, dustless sandstone. The locomotives are equally notable for their great power and speed, and for the absence of the soot, sulphur, smoke and cinders so obtrusively and disagreeably in evidence upon some lines of travel. These steam-driven steeds of steel are fed upon hard, anthracite coal exclusively. And the "Flyers"—on the "Flyers" the phrase is, something or other, suggestive of an undertaking pleasantly perilous. Taking a "Flyer" on the Royal Reading Railroad route for Atlantic City is a pleasure, a grand success in any case, and a thoroughly recommended to all. I sincerely hope that others will test its merits.

Yours respectfully,

About 3 o'clock a free fight occurred which soon roused the neighbors from their slumbers and brought the police on the scene. NOTES OF SOUTH SIDE

A Diabolical Practical Joke Played Yesterday at the Car Shops.

IT MIGHT HAVE BEEN FATAL

Stick of Dynamite in a Pile of Burning Timbers Scatters the Heap in All Directions—Miraculous Escape of a Crowd of Hungarian Laborers. The Conductor Was Honest—Today's Y. W. C. A. Services.

As diabolical a practical joke as has yet been reported, was played yesterday by some unknown miscreant at the South Washington car shops of the Delaware, Lackawanna and Western Railroad company. It missed killing a dozen persons by the very good luck.

There is a space near the car shops where the broken parts of rolling stock are turned up, as the easiest way of separating the iron from the wood. Every morning a big heap of the stuff is disposed of in this way. Yesterday, as usual, this pile was set on fire, and it had been burning but a few minutes when an explosive that had been lodged in the heap blew up and sent the broken car beams in all directions with deadly propulsion.

There was a gang of nine or ten Hungarian laborers at work near the scene and the concussion threw every one of them to the ground. The flying timber fell among the gang, but, strange to say, not one of them was struck. The force of the explosion was felt in all parts of the yard.

It is thought that a stick of dynamite was placed in the pile to injure the Hungarian laborers that are employed at the car shops. A fuse was probably attached to the dynamite so that it would explode as soon as the fire reached it.

LOST HER POCKET BOOK.

It Contained Her Husband's Pay, but She Got It Back.

A middle aged woman got on Conductor P. J. Kelly's car on Cedar avenue, near Birch street, yesterday morning at 9 o'clock. She alighted from the street car at the corner of Penn and Lackawanna avenues; but before she left her pocket book slipped from her pocket and dropped on the seat. At Franklin avenue Conductor Kelly saw it and took it in charge. He turned it and found that it contained \$50.

A few hours later the woman was noticed by Mr. Kelly, as she stood on the avenue crying. He concluded to look her up and learned that she was the one who lost the money. He returned it to her and received her most cordial thanks. This makes the second case where in money was lost on Conductor Kelly's car and returned to the owner. Motorman Tom Gallagher found the other purse.

Butcher Frank Schaner, of Cedar avenue, has placed a handsome new delivery wagon on the road, manufactured by Conrad Peil, and named "The Neptune," in honor of the new Neptune steamer.

FOR A NEW BUILDING.

Special Meeting of Board of Trade Will Consider It.

A special meeting of the board of trade Monday evening may prove one of the most important ever held by that body. A special proposition has been made by individuals to construct a magnificent structure to be known as the board of trade building.

A committee was at work yesterday in reference to the matter, and by Monday will have considered the matter fully. If the meeting wishes to have the matter continued, the committee will be in a position to give detailed information on the subject.

For some time the idea of having a building of its own was considered by the board informally and occasionally in an official way in committee or meeting. The question of need was always realized but a satisfactory plan for promulgating the project never materialized. Now, however, the board is in a fair way toward acquiring a home of its own and the meeting will probably attract a generous attendance.

WILL SKIP SCRANTON.

Moody Meetings Not Likely to Be Held Here.

As announced in THE TRIBUNE some time ago it is extremely doubtful if the great Moody evangelistic campaign in this valley will include Scranton. Information to this effect is given by a gentleman who is familiar with the plans of Mr. Moody's corps of workers, and who is in the city. He said: "The campaign was an organized in-
